Telco projects: Volta Networks

- **Who is involved?**
  - Mark, Emanuele, Patrick, Lynne, Karen, Brady, Javier, Fredi
- **What are we working on / with whom we collaborate?**
  - **PCEP** library integrated in NetDef's basic PCC (with NetDEF)
  - **LDPd** improvements: ordered LSP control, NB support, authentication...
  - **Backup paths** in zebra (integration with TI-LFA by NetDEF)
  - **NB API** for daemons (did ISISd, some zebra)
  - **EVPN** extensions (MPLS underlay)
  - **SB API** extensions
- **Where could we help or get help?**
  - Anything related to the above, IGPs, BGP...
  - Activities around SR/SR-TE/PCEP (e.g. SR policies, TED design/impl.) & ODL
  - (Yang) modelling in general
  - Testing
